

Covid 19 Guidance for Southlake Newcomers Club

2021-2022

In order to address health issues for safe gathering in our various events and groups in the 2021-2022 year of Southlake Newcomers Club, we would like to give our members some helpful guidelines.

If you feel sick, please stay home. If someone in your immediate family or who lives with you tests positive for Covid, please self-quarantine. If you are sick and think it may be Covid or you test positive for Covid 19, *please notify the Sunshine coordinator, Shelley Bergbower, of your illness as soon as possible.* Shelley will notify the group leader and those you have come in close contact with. If you live alone and need assistance during your illness, Shelley will coordinate volunteers willing to help.

If you choose to attend events and are immunocompromised, please wear a mask for your own safety and keep distance from others as best you can.

All of this guidance is voluntary and depends on our own **responsibility** and **respect** for the health concerns of others. Please be aware and respectful of those who may feel very vulnerable. *We hope this guidance will be helpful and supportive for all our members!*
